

Back Panel for downdraft table

Description

The Back Panel functions as a deflector plate for grinding applications. It also prevents sparks, tools, metal and other parts to fall behind the downdraft table.

Applications

The Back Panel intended to be used for the following applications:

- grinding 

Do **not** use the Back Panel for the following applications or in the following circumstances: 

- MIG-MAG/GMAW welding
- TIG welding
- FCAW welding
- stick/MMAW welding

Specifications
